

Date: 01 December 2023

To
Dr. Poorna Prakash,
Consultant Radiologist,
SKS Hospital,

Dear Sir,

Regarding baby of Punithavali, baby Kavin, DOB: 11-05-2023; MR No: 604903

I would be grateful if you could perform a renal ultrasound scan on this child, who has been routinely monitored for renal pelvis dilatation on the left. His last scan performed on the 30th of October, 2023, revealed a 9 mm renal pelvis dilatation on the left.

Please compare it with the previous scans for this current report.

Thank you.

Yours sincerely,

Dr. S. Ramakrishnan.
