Mumbai

Dear Sir

Re: B/o DIVYA VIDYAPRAKASHI. DOB: 18.12.2023. F. MR: 6318P2
microphthalmia syndrome

This infant was diagnosed with Sox2 disorder, (autosomal dominant) and
pyridoxine dependant Seizures / PNP deficiency / Pyridoxine deficiency
- on treatment. Re-run of the genetic test suggest "No
pathogenic or likely pathogenic variants causative of the
reported phenotype were identified. The infant is clinically
and developmentally normal. Please advise the family whether to
